

PRICE LIST OF CONFEDERATE, SOUTHERN STATE AND SOUTHERN ESOTERIC PAPER

Since most collectors of CSA and Southern State currency appreciate the interesting and unusual varieties offered by these fascinating collecting fields, I thought I'd list some unusual items. It has been a long time since I've put out a CSA price list. I believe the last list was an ad in a 1959 "Numismatist". Since that time I've held a few thousand CSA notes up to the light to check for cut cancels and better watermarks. If you have any specific wants, feel free to advise me on a strictly no obligation basis. I've handled some great notes and some make the round trip back to my inventory. During the bitter days during Reconstruction, many CSA collections and hoards made their way north where they realized a small amount for absolute necessities of life. Thus, many great notes as well as contemporary counterfeits reside in the north. I don't mind sending a few back "home" down south.

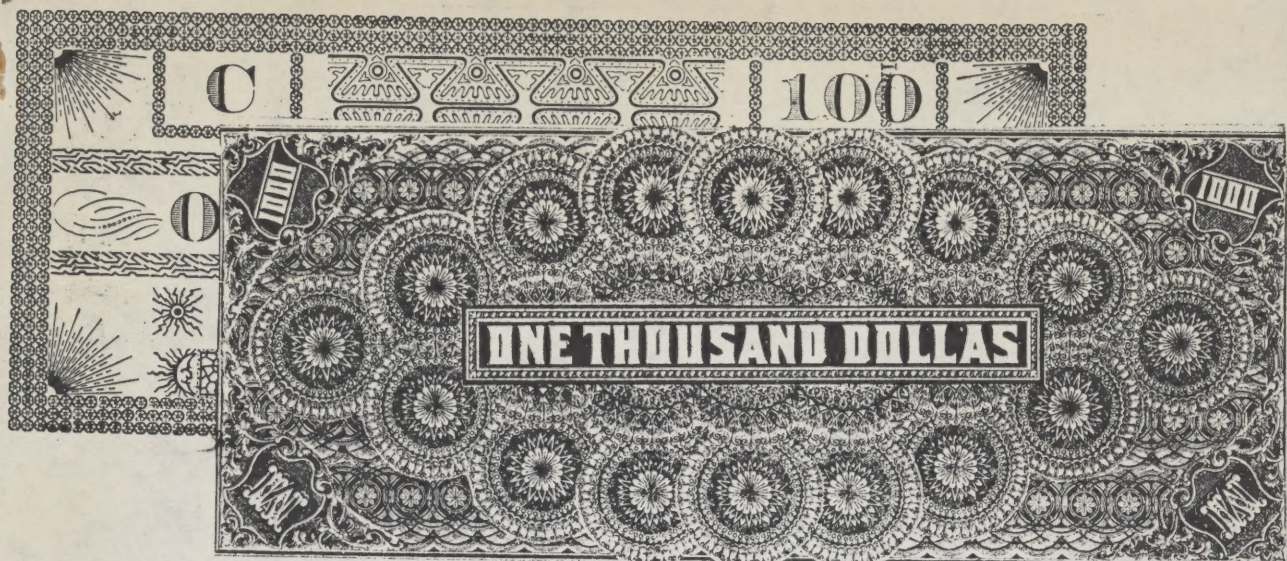

Confederate Currency: \$2 Sept. 2, 1861 (Error Date) A repaired tear and a few tiny edge replacements along with some minor flaws. Still a presentable note with good appearance equal to some AF's. These notes usually look "washed out" in lower grades. For the bargain hunter. \$75
